Maharashtra, India

Education

Sanjivani College of Engineering Kopargaon India.
B. Tech 3rd year Information Technology (CGPA 7.5).   2026

Technical skills

Programming Languages: Python, PHP
Data Science/ML Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Matplotlib, Seaborn, SciPy
Database Management: SQL, MongoDB
Business Intelligence Tools: Excel, Power BI, Tableau, Jupyter Notebooks
Soft Skills: Communication , Problem Solving , Time Management

---

Projects

File Sharing Web Application (2023)

Developed a secure file-sharing platform using Flask and AWS S3. Integrated user authentication and encryption for secure file uploads/downloads. Designed an intuitive user interface for seamless interaction.

Green Screen Replacement (2022)

Built a system for replacing green backgrounds using Python and OpenCV. Optimized the algorithm to ensure high-quality image compositing in both images and videos.

Uber Data Analyst Project (2024)

Analyzed Uber trip data using Python and SQL to identify trends in customer demand, driver performance, and pricing. Created visualizations in Tableau to provide actionable business strategy insights.

Internship

1.Codesoft (virtual)

Developed web applications using HTML, CSS, JavaScript, and React. Utilized Node.js and MongoDB for backend development, creating scalable web solutions. Collaborated on responsive design and performance optimization across platforms.

Certification

1.Python Data Science Essentials
2.AWS Academy Cloud Foundations
3.Data Structures and Algorithms using Java
4.Basics of Python

Extra-curricular Activities / Achievements-Awards

1. Participated in Smart India Hackathon.
2. District level Chess Player
3. Developer Student Club Member
